The Parent Company's management is responsible for the preparation and presentation of this interim condensed consolidated financial information in accordance with the basis of preparation set out in Note 2. Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, *"Review of Interim Financial Information Performed by the Independent Auditor of the Entity"*. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently, it does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with the basis of preparation set out in Note 2.

Report on Other Legal and Regulatory Requirements

Furthermore, based on our review, the interim condensed consolidated financial information is in agreement with the books of account of the Parent Company. We further report that, to the best of our knowledge and belief, we have not become aware of any violations of the Companies Law No. 1 of 2016, as amended, and its executive regulations, as amended, or of the Parent Company's Memorandum of Incorporation and Articles of Association, as amended, during the nine-month period ended 30 September 2026 that might have had a material effect on the business of the Parent Company or on its financial position.

2.1 Basis of preparation

The interim condensed consolidated financial information for the nine months ended 30 September 2026 has been prepared in accordance with IAS 34 *Interim Financial Reporting*, except as noted below.

The interim condensed consolidated financial information for the nine months ended 30 September 2026 is prepared in accordance with the regulations issued by the CBK for financial services institutions in the State of Kuwait. These regulations require the expected credit loss ("ECL") on credit facilities to be measured at the higher of the amount computed under IFRS 9 *Financial Instruments* in accordance with the CBK guidelines or the provisions as required by CBK instructions; the consequent impact on related disclosures; and the adoption of all other requirements of IFRS Accounting Standards as issued by the International Accounting Standards Board ("IASB") (collectively referred to as IFRS, as adopted by CBK for use by the State of Kuwait).

The Group has prepared the financial information on the basis that it will continue to operate as a going concern. The management considers that there are no material uncertainties that may cast significant doubt over this assumption. They have formed a judgement that there is a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future, and not less than 12 months from the end of the reporting period.

The interim condensed consolidated financial information does not include all the information and disclosures required in the annual consolidated financial statements, and should be read in conjunction with the Group's annual consolidated financial statements as at 31 December 2025.

The interim condensed consolidated financial information provides comparative information in respect of the previous period. Certain comparative information has been reclassified and re-presented to conform to classification in the current period. Such reclassification has been made to improve the quality of information presented.

2.2 New standards, interpretations and amendments adopted by the Group

The accounting policies adopted in the preparation of the interim condensed consolidated financial information are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2025, except for the adoption of new standards effective as of 1 January 2026. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7)

In May 2024, the IASB issued Amendments to IFRS 9 and IFRS 7, Amendments to the Classification and Measurement of Financial Instruments (the Amendments). The Amendments include:

- Clarifications of the requirements for recognition and derecognition of financial assets and financial liabilities. In particular, a financial liability is derecognised on the 'settlement date' and an accounting policy choice is introduced (if specific conditions are met) to derecognise financial liabilities settled using an electronic payment system before the settlement date.
- Additional guidance on how the contractual cash flows for financial assets with environmental, social and corporate governance (ESG) and similar features should be assessed.
- Clarifications on what constitutes 'non-recourse features' and what are the characteristics of contractually linked instruments.
- The introduction of disclosures for financial instruments with contingent features and additional disclosure requirements for equity instruments classified at fair value through other comprehensive income (OCI).

The amendments had no impact on the Group's interim condensed consolidated financial information.

Annual Improvements to IFRS Accounting Standards - Volume 11

In July 2024, the IASB issued nine narrow scope amendments as part of its periodic maintenance of IFRS accounting standards. The amendments include clarifications, simplifications, corrections or changes to improve consistency in IFRS 1 First-time Adoption of International Financial Reporting Standards, IFRS 7 Financial instruments: Disclosure and its accompanying Guidance on implementing IFRS 7, IFRS 9 Financial Instruments, IFRS 10 Consolidated Financial Statements and IAS 7 Statements of Cash Flows.

The amendments had no impact on the Group's interim condensed consolidated financial information.

2. BASIS OF PREPARATION AND CHANGES TO THE GROUP'S ACCOUNTING POLICIES (continued)

2.2 New standards, interpretations and amendments adopted by the Group (continued)

Other amendments to IFRSs which are effective for annual accounting period starting from 1 January 2026 did not have any impact on the accounting policies, financial position or performance of the Group.

The property under development was acquired in 2024. As of 30 September 2026, the Group continues to record the property under development at its entire value as the sharing of property will only occur once the third party completes the construction of the property.

6. INTANGIBLE ASSET

Intangible asset represents a brokerage license in Kuwait acquired for KD 12,500,000 stated net of impairment loss of KD 3,900,000 (31 December 2025: KD 3,900,000 and 30 September 2025: KD 3,900,000). The brokerage license is determined to have an indefinite useful life.

The Group performed its annual impairment test in December 2025 and concluded that no impairment exists as of the reporting date. The recoverable amount has been determined based on value-in-use calculations using cash flow projections from financial budget approved by management covering a five-year period based on the historical pattern of trade volumes, revenue growth and market share. The discount rate applied to cash flow projections is 12.8% as at 31 December 2025 and cash flows beyond the five-year period are extrapolated using growth rate of 3.06% per annum, which does not exceed the long-term average growth rate of the State of Kuwait.

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. No changes were identified since 31 December 2025.

* The Group committed to a plan to dispose of five investment properties with a carrying value of KD 13,320,000 and accordingly reclassified these assets from investment properties to assets held for sale. Management has assessed that, at the date of commitment to the disposal plan, all five properties met the criteria for classification as held for sale in accordance with IFRS 5 Non-current Assets Held for Sale and Discontinued Operations.

Investment properties with a carrying value of KD 14,395,000 (31 December 2025: KD 14,395,000 and 30 September 2025: KD 36,833,000) and assets held for sale with a carrying value of KD 13,320,000 (31 December 2025: KD 13,320,000 and 30 September 2025: KD Nil) represent commercial and residential properties in the State of Kuwait and are pledged as security in order to fulfil collateral requirements of certain loans and borrowings (Note 9).

8. INVESTMENT PROPERTIES (continued)

The fair value of the investment properties was determined based on valuations carried out at 31 December 2025 by two independent registered real estate appraisers who are industry specialised in valuing these types of properties in which one of these valuers is a local bank. As required by the Capital Markets Authority (CMA), the Group has selected the lower of these valuations. The valuation models applied are consistent with the principles in IFRS 13 and fair value is determined using a mix of the income capitalisation method and the market comparison approach considering the nature and usage of each property. Valuation of the Group's investment property portfolio is performed on an annual basis as management believes that there are no significant circumstances that have arisen during the interim reporting period, which may have a material impact on fair value.

9. LOANS AND BORROWINGS (continued)

Loan covenants
Banking covenants vary according to each loan agreement. A future breach of covenant may require the Group to repay the loans on demand. During the period, the Group did not breach any of its financing covenants, nor did it default on any other of its obligations under its finance agreements.

10. FIDUCIARY ASSETS

The Group manages investment portfolios and funds on behalf of clients and provides online trading facilities. The total carrying value of these portfolios as at 30 September 2026 amounted to KD 440 million (31 December 2025: KD 417 million and 30 September 2025: KD 420 million), which are not reflected in the interim condensed consolidated financial information. The portfolios have no recourse to the general assets of the Group. The Group makes investment decisions in line with the respective agreements.

Management fees earned from the above fiduciary assets for the nine months ended 30 September 2026 amounted to KD 254,564 (30 September 2025: KD 704,306) and commission income earned on assets under management amounted to KD 1,264,548 (30 September 2025: KD 1,251,654).

The Parent Company is a shareholder in an entity, which is incorporated in the Kingdom of Bahrain, in a fiduciary capacity on behalf of a sovereign authority in Kuwait. This investment is not recognised in the consolidated financial statements of the Parent Company.

11. EARNINGS PER SHARE (EPS)

Basic EPS amounts are calculated by dividing the profit for the period attributable to equity holders of the Parent Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is calculated by dividing the profit attributable to ordinary equity holders of the Parent Company by the weighted average number of ordinary shares outstanding during the period plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares. As there are no dilutive instruments outstanding, basic and diluted EPS are identical.

13. FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

Fair value hierarchy
All financial instruments for which fair value is recognised or disclosed are categorised within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole, as follows:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the interim condensed consolidated financial information at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. The methods and valuation techniques used for the purpose of measuring fair value are unchanged compared to the previous reporting period.

Set out below is a summary of financial instruments of financial instruments and non-financial assets measured at fair value on a recurring basis, other than those with carrying amounts that are reasonable approximations of fair values:

14. SEGMENT INFORMATION

For management purposes, the Group is organised into business units based on its products and services and has five reportable segments, as follows:

- **Asset Management:** engaged in providing third party fund and portfolio management services on a fiduciary basis.
- **Brokerage and online trading:** engaged in on-line and brokerage services across Middle East and North Africa (MENA) and United States of America ("USA") based stock exchanges.
- **Credit operations:** engaged in providing margin loans to the clients trading in Boursa Kuwait and commercial loans to the clients.
- **Investment, real estate and treasury:** engaged in money market placements, real estate activities and includes proprietary trading in equity stocks and funds across Gulf Cooperation Council ("GCC") and international markets.
- **Rental and leasing activities:** Rental and leasing activities in the State of Kuwait.

The management of the Group monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the interim condensed consolidated financial information.

15. COMMITMENTS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS (continued)

15.2 Legal claim contingency

In prior years certain unit holders applied for redemption of their units in funds managed by the Parent Company ("the funds"). However, the funds, due to liquidity issues, suspended redemptions temporarily and started an orderly liquidation in 2008. Accordingly, certain unit holders initiated legal actions against the funds and the Parent Company to redeem their units and requested for a compensation. Further, the Parent Company in its capacity as the liquidator of the funds has filed a counter claim against certain debtors of the funds to recover outstanding receivables to enable the orderly liquidation.

The legal actions commenced by the unit holders against the Parent Company and the funds are in various phases of litigation and no final court rulings have been issued by the Court of Cassation as of date.

As part of the Parent Company's regular review of ongoing litigations and based on the legal opinion received from its external and in-house legal counsel and facts disclosed above, the management have determined that it is not possible to reach a reliable estimate for the most likely outcome. Accordingly, no provision for any liability has been made in this interim condensed consolidated financial information.

During the period, the Court of Appeal upheld the previous court ruling dismissing the pending claims in their current form, on the basis that the liquidation process of the relevant funds is still ongoing and the alleged damages have not yet become final. The judgment did not result in any financial obligation on the Parent Company or the funds as of the reporting date. Management will continue to monitor the related legal proceedings and assess the need for any provisions or additional disclosures in future reporting periods based on the facts and circumstances as they evolve.

16. CAPITAL MANAGEMENT

The primary objectives of the Group's capital management are to ensure that the Group complies with externally imposed capital requirements and that the Group maintains strong and healthy capital ratios in order to support its business and to maximise shareholder value.

The Group actively manages its capital base in order to cover risks inherent in the business. The adequacy of the Group's capital is monitored using, among other measures, the rules and ratios established by the Capital Markets Authority in supervising the Group.

The Group's regulatory capital and capital adequacy ratios for the period ended 30 September 2026, year ended 31 December 2025 and the period ended 30 September 2025 are calculated in accordance with provisions of Module seventeen (Capital Adequacy Regulations for Licensed Persons) of the Executive Bylaws of Law No. (7) of 2010 and their amendments thereto.

	30 September 2026	*(Audited) 31 December 2025*	*30 September 2025*
Available (eligible) regulatory capital (KD)	**19,828,770**	18,267,389	8,000,668
Required regulatory capital (KD)	**15,298,300**	16,398,213	20,746,481
Capital adequacy ratio (%)	**130%**	111%	39%

As at 30 September 2026, the Parent Company is in compliance with minimum required regulatory capital adequacy ratio of 100% set forth in Article (3-1) of Module seventeen (Capital Adequacy Regulations for Licensed Persons) of the Executive Bylaws of Law No. (7) of 2010 and their amendments thereto.

17. IMPACT OF GEOPOLITICAL ESCALATION RISK AND RELATED UNCERTANITY

The Group operates in a global and regional economic environment that continues to be affected by heightened geopolitical tensions in the Middle East. Recent developments in the region have increased uncertainty in financial markets, energy supply and costs, regional security conditions, and global trade routes. The wider regional impact of these events may affect economic conditions relevant to the various sectors. Management has assessed the potential impacts of the geopolitical situation on the Group's operations and financial position, taking into consideration:

- Macroeconomic conditions, including inflationary pressures, interest rate volatility, and economic growth trends that may influence tenant demand, occupancy levels, and rental rates.
- Financing and liquidity, including the availability and cost of debt financing, refinancing risk, and compliance with financial covenants.
- Market liquidity risk, including the ability to realise investments at quoted or observable market prices in periods of heightened volatility.
- Fair value volatility of investments, particularly those exposed to emerging markets, energy-sensitive sectors, or regions indirectly affected by supply-chain disruptions and energy market instability.

As at the reporting date, the Group has not experienced any material disruption to its core operations. Accordingly, management has not identified any material adverse impacts on the overall valuation of the property or investment portfolios that require specific adjustment beyond those reflected in observable market prices and valuation inputs.

In assessing the carrying values of investment properties and other non-financial assets, management has not identified any indicators of impairment requiring recognition at the reporting date. However, future adverse developments in the geopolitical environment may result in changes to key valuation assumptions.

The Group maintains liquidity buffers and capital resources that management considers sufficient to meet its commitments and operating expenses as they fall due. The Group has assessed the potential impact of adverse market movements on its ability to realise investments or access funding, including under stressed market scenarios. No breaches of liquidity thresholds, investment restrictions, or capital management policies were identified as at the reporting date.

Management has also considered the impact of these events on the Group's ability to continue as a going concern and concluded that the going concern basis remains appropriate. The geopolitical situation remains dynamic, and the extent and duration of potential impacts on global financial markets are uncertain. Management continues to monitor developments closely and will reflect any material impacts in future valuations, risk disclosures, and financial reporting as appropriate.
